

Request 3: Provide a report with all the unique product counts for each segment and sort them in descending order of product counts. The final output contains 2 fields, segment product\_count.

```
SELECT
    DISTINCT(segment),
    count(DISTINCT(product_code)) as product_count
from dim_product
group by segment
order by product_count DESC;
```

	segment	product_count
▶	Notebook	129
	Accessories	116
	Peripherals	84
	Desktop	32
	Storage	27
	Networking	9

**Insights:** Among six segments, Notebooks had the most products (129) and Networking the fewest (9).
